

For final project, find and refer any paper the subject you are interesting in. Implement the subject with any classify methods discussed on the course. Hand in your project result to the Moodle, before **July 5, 2017**. The material that you hand in including: *Topic description, objective, how to design the classifier, sample data, source code, how to use your system, execution results and discussion.*

期末專題製作，請同學自行找一個題目或一篇別人之 **paper**，就課程中所提到的分類器方法之一的應用即可。專題執行結果，請在 **106 年 7 月 5 日前**，將題目描述、目的、利用何種分類方法、如何做分類器設計、設計與測試資料內容來源與特性、程式原碼，如何使用系統、執行結果、討論，上傳至 **Moodle** 平台。
